

MediMinder

An SMS-based
Medical Appointment

- A small software package to send automatic text messages reminder to patient
- A huge time saving in administrative staff
- Customized text message for patients.

Features

- Sends text messages to remind patients about upcoming appointments
- Gets confirmation from patient via text message
- Compatible with most of Database Management Systems (Access, SQL, MySQL, ...)
- Export data from Excel and CSV files into MediMinder.

How it works?

- MediMinder connects to your scheduling system and is updated every time you enter or change an appointment.
- It is installed in your office and there is no need to worry about confidentiality of your patients' personal data.
- You need a dedicated line and cell phone to manage incoming and outgoing texts.

Pricing

	Appointments per Month	Price per Month
Solo Practitioner	300	\$45
Group Practice	700	\$90
Large Practice	1500	\$180
